

## Anti-Wrinkle Cream with Vitamin C and Hyaluronic Acid

For best results Vitamin C should be combined with Vitamins A and E. They work in synergy.

**Hyaluronic Acid** - many times more than used in most high end moisturisers.

The inclusion of a large amount of Hyaluronic Acid in Anti-Wrinkle Cream will reduce TEWL (Trans Epidermal Water Loss) in the skin. HA also plumps the skin by replenishing natural supplies in cells. Elasticity is also increased.

Vitamins are vital to skin health and in prevention and reversal of ageing skin effects. Vitamin C is well proven for increasing the synthesis of collagen and elastin, is a Tyrosinase inhibitor for preventing pigmentation, skin lightener, protects from UV rays etc.

**Olive Squalane** is a high end light oil with almost the same profile as human sebum, it is extremely nourishing. We have used a French product to provide the lipids without heaviness.

**Rice Bran Oil** has amazing properties including high levels of natural Vitamin E. Rice Bran Oil is an anti oxidant and a hugely effective moisturiser that increases lipid levels.

**When to Use:** Anti Wrinkle Cream (AWC for short) is for AM and PM use in winter or in dry harsh conditions or PM in summer.

This price, like our A-C-E Vitamin C serum is the best you will find anywhere for such a quality Vitamin C cream. I hope you will recognize what we are presenting and introduce your skin to the MiSMo Vitamin C duo of A-C-E Serum and Anti Wrinkle Cream with Vitamin C and Hyaluronic Acid.

*Visible difference in deep lines after only a few applications!*  
- Sylvia M

*I discovered Mismo after suffering through a bout of perioral dermatitis, which left me wanting a more natural skincare range than the one I had been using for years. Being able to order the trial sized products was a bonus as it gave me a chance to sample the range without committing up-front. My favourite product is the Rejuvenating Gel – my face can be quite flushed after my morning shower, and this product is so cooling and hydrating, whilst also smoothing the fine lines around my eyes. I alternate between the Nourishing Cream and Anti-Wrinkle Cream for my moisturiser, and my teenage daughter now shares (steals!) my Daily Face Wash and Blemish Gel to keep her own skin clear. These four or five products have literally saved my skin! - Sally S*
